

Seed Saving Workshop

Practical workshop on how to save your own vegetable seeds. Areas covered include :

- The various pollination methods and levels of cross pollination of different vegetables.
- What plant varieties are the easiest to save seeds from.
- Practical demonstration of the different methods of saving seed.
- Seed storage life.
- Seed collecting equipment.
- Labelling and packaging of seeds.
- Practical session where participants collect and save their own seeds.

When : Sunday 26th February

Times : 10 am (will run for approximately 2 hours)

Where : Ballarat Community Gardens.

Corner Queens St.& Dyte Parade.

Cost : \$10. This includes at least two packets of seeds.

(All proceeds donated to the Ballarat Community Garden)

As numbers are limited bookings are required. For more information or to book ring John Ditchburn on 53317448

As it is an outdoor workshop please dress appropriately for the weather.
